

BRIAN HACKETT

Pittsburgh, PA · (724) 971-5630

hackettbrianr@gmail.com · [linkedin.com/in/brianrhackett83](https://www.linkedin.com/in/brianrhackett83)

Deep expertise and hands on experience with Web Applications and programming languages such as PHP, HTML, CSS, JavaScript. Experience working in agile framework and worked as lone/lead developer as well as in a team environment.

EXPERIENCE

08/2025 – 02/2026

FREELANCE DEVELOPER, SELF-EMPLOYED

- Built responsive WordPress websites for local businesses using Elementor and custom PHP development.
- Implemented SEO best practices, mobile optimization, and site performance improvements.
- Integrated contact forms, analytics, e-commerce functionality, and third-party APIs.
- Translated designs from Adobe Illustrator into pixel-perfect webpages.

08/2020 – 09/2023

FULL-STACK DEVELOPER, SNACKCRATE

At SnackCrate, I maintained and enhanced a back-end that interacts with several different APIs to create a monthly subscription service.

- Regularly aided Customer Support with a broad range of issues
- Integrated SAP into our existing system to help manage item inventory, sales tracking, etc.
- Built back-end for a new stand-alone eCommerce site using WordPress, including all fulfillment processing
- Built back-end for a rebranded and more robust Account page which enhances our customers' ability to track orders, manage subscriptions, and more

06/2019 – 11/2019

SOFTWARE DEVELOPER, AMERICAN MORTGAGE CONSULTANTS

Worked as part of a team to enhance functionality of a Rate-Lock system. Received specifications from multiple clients and interpreted those into our system.

- Interpreted product specifications into mySQL queries to work within the existing system
- Updated automated Email templates to be more visually appealing in HTML format
- Created new reports that export to Excel, including updates to mySQL queries and the PHP to generate them
- General UI updates, using PHP, vanilla JavaScript, and jQuery
- General bug fixes to custom PHP application

11/2018 – 04/2019

WEB DEVELOPER, SECURESET ACADEMY

Worked as lone developer on a small team. Created new page layouts on multiple platforms, including WordPress. Offered estimates on future work to be completed and maintained existing CRMs that were used by the company.

- Worked closely with Marketing Director to maintain and update multiple web platforms.
- Implemented designs for new pages and existing page updates within a custom WordPress theme. Used PHP, jQuery, and SASS to complete new design.
- Managed 3rd party integrations with several marketing CRMs, including Salesforce, Hubspot, Hotjar. A custom WordPress plugin was used to manage integrations.
- Generated reports based on website user activity, marketing email clicks, etc.

03/2018 – 07/2018

SOFTWARE DEVELOPER, SMARTMARKET DENTAL

Worked remotely on bug fixes and new development for an analytics platform. Created visual graphs of patient data for Dental Offices around the US.

- Efficiently and accurately completed ongoing feature development of existing software platform, built in PHP.
- Performed first level QA and completed all identified bug fixes.
- Oversaw client account connections and initiated client contact to reconnect the account.
- Created new reports for a client dashboard, using MySQL to fetch data, PHP back-end, and the D3 JavaScript library to create charts

09/2011 – 12/2018

SOFTWARE DEVELOPER, OPENARC

Worked with many clients on projects that used various technologies. My focus was building websites/application in CMS platforms that allowed the client to manage their own websites moving forward. This included Joomla!, WordPress, and Drupal. Main frontend technology used was jQuery. I also worked on projects utilizing .net, Ruby on Rails, and several different PHP frameworks such as Zend, CodeIgniter, and CakePHP.

- Wrote maintainable and extensible code in a team environment in various backend and frontend technologies.
- Consulted regularly with customers on project status, proposals, and technical issues.
- Worked effectively with design teams to ensure software solutions elevated client-side experience.
- Implemented designs, including experimentation and multiple iterations.
- Modified existing software to correct errors, upgrade interfaces and improve performance.
- Worked closely with other team members to plan, design, and develop robust solutions in a timely manner

EDUCATION

2006

BACHELOR OF SCIENCE IN MATHEMATICS, GROVE CITY COLLEGE
